Jared Ramirez Donce

Let's Build a Play Structure for Jared!

He is a 4 year old boy who has been diagnosed with neuroblastoma, a type of brain cancer. He has gone through many treatments and a stem-cell transplant. As a typical 4 year old boy, he loves to go to the park and play on the swings. His grandma has been walking with him to their neighborhood park, but Jared has begun to get too tired to play after his walk to the park, so he thought it would be nice to have a play structure with swings, slides, and a fort in his backyard.
